"6 pennies are equal to a 6p coin."

Do you agree with Miss Roar?

"The more coins you have the more money you have."

Using your coins can you prove whether Mr Squeak is correct or not correct.

"If I exchange a 20p and a 5p coin for pennies, how many 1p coins will I have?"

Work out how many 1p coins Miss Mittens will have and then explain how you know.
