

EARTH

Distance from the sun: _____

Length of orbit: _____

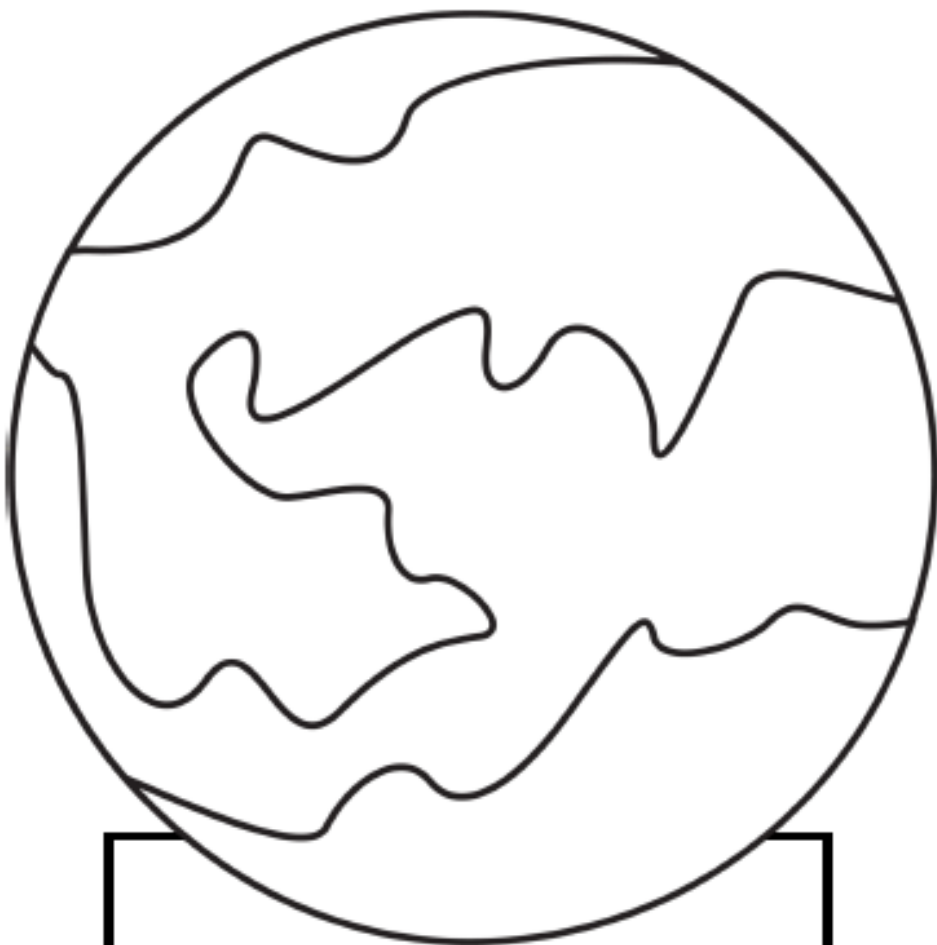

Diameter: _____

Climate: _____

History of name: _____

Interesting facts:

MERCURY

Distance from the sun: _____

Length of orbit: _____

Diameter: _____

Climate: _____

History of name: _____

Interesting facts:

MARS

Distance from the sun: _____

Length of orbit: _____

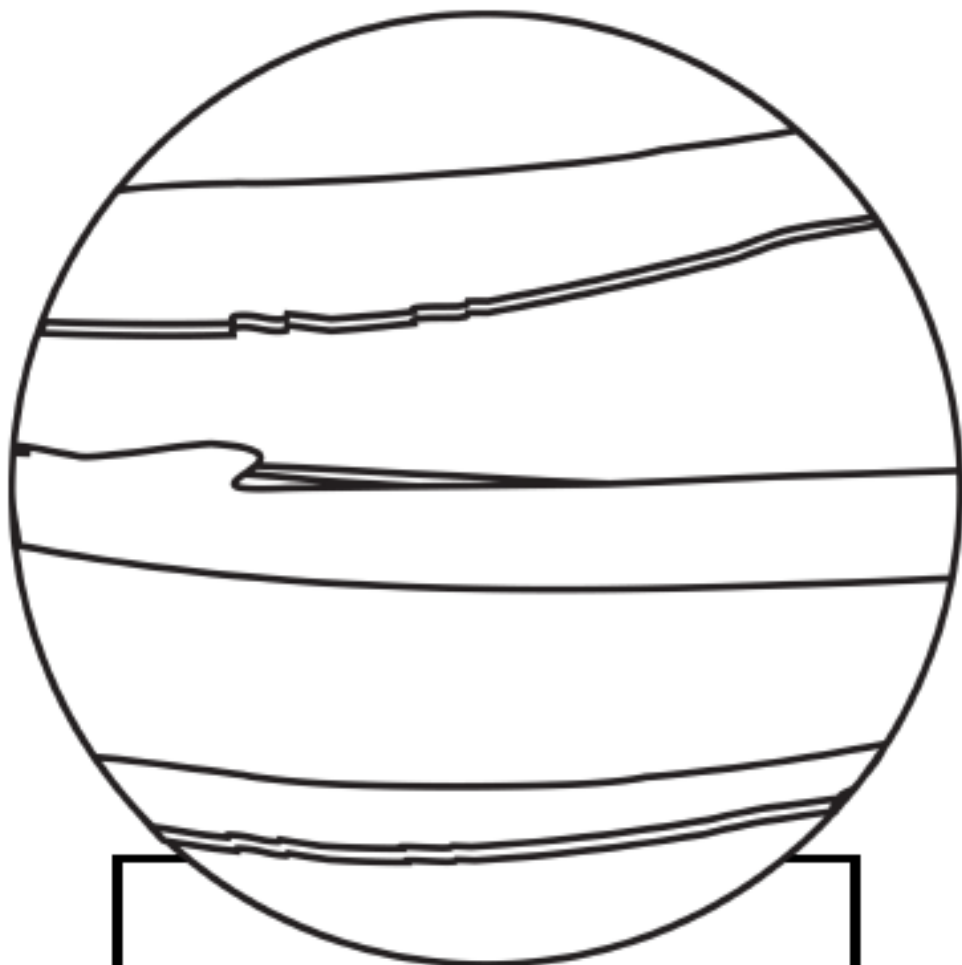

Diameter: _____

Climate: _____

History of name: _____

Interesting facts:

VENUS

Distance from the sun: _____

Length of orbit: _____

Diameter: _____

Climate: _____

History of name: _____

Interesting facts:

MOON

Distance to Earth: _____

The moon orbits _____ every ____ days.

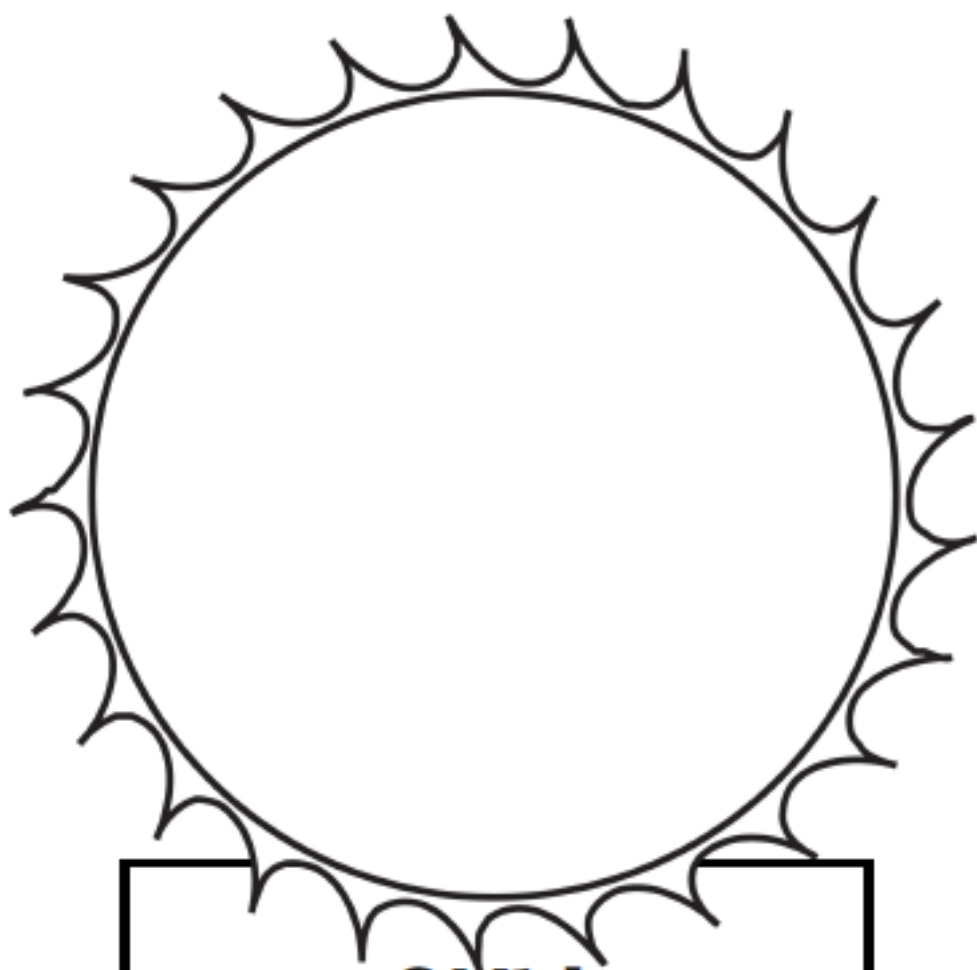

Diameter: _____

Climate: _____

How much of the moon can we see at one time? Why?

Interesting facts:

SUN

How long does it take light from the sun
to reach Earth? _____

Diameter: _____

Temperature of surface: _____

Temperature of core: _____

History of name: _____

Interesting facts:
