God created a world full of trees. We have destroyed too many. Without them we simply cannot survive.

Scarlet

We have all been on a seed hunt and together we collect acorns and horse chestnut seeds

Elsie

We have planted them up and created an Ou Lady Star of the Sea tree nursery!

Marla

We are going to look after our pots until they are growing. Then we would like to give them away to any family that is will to take the small tree and plant it somewhere safe.

Dexter

There are no wolves or lynxes or bears here in Britain anymore because there is simple nowhere for them to live.

Bella.

One of our school virtues is to be active. We are acting— growing trees.

Please be active and take care of our wonderful planet

Marla

Trees absorb billions of tonnes of carbon dioxide

Eliza

It takes around 450 mature trees to offset the annual emissions of one person

Jude d.

Trees are a home for wildlife

Jacob

Trees make us happy -green space can reduce sadness and create feelings of calm

Ruth

England's largest forest is in Northumberland

Jack

The world's oldest tree was around when the pyramids were built

Freddie

The amount of oxygen produced by an acre of trees per year equals the amount consumed by 18 people annually. One tree produces nearly 260 pounds of oxygen each year. *Edward*

Tree roots stabilize soil and prevent it being washed away *Hallo*

A mature birch tree can produce up to 1 million seeds per year. *Sasha*

A Large Oak Tree Can Drop 10,000 Acorns in One Year *Daniel*

Trees are able to communicate and defend themselves against attacking insects. *Patrick*

More than half of all tree species exist in only one country—BRAZIL *Bonnie*

Trees keep our air supply fresh by absorbing carbon dioxide and producing oxygen.

Heidi

There are 60 different natives trees to the United Kingdom.

Vincent

Trees lower air temperature by evaporating water in their leaves.

Wren

Trees improve water quality by slowing and filtering rain water

Michael

Trees provide protection from downward fall of rain, sleet, and hail as well as reduce storm run-off and flooding

Jude Capp

Trees are the longest living organisms on earth.

Henry O
